

# VIBE FOCUS

---

## PARTITION SCREEN FOR CARE ENVIRONMENTS

**VIBE FOCUS PARTITION SCREEN** has been specially customised for health-care. Flexible and functional partition screens that are easy to assemble, are sound dampening, and that provide perfect screening. They are upholstered in durable artificial leather, which is easy to wipe down and disinfect without having to dry them off afterwards with water. Perfectly suited for temporary hospitals, nursing homes, and other types of healthcare environments.

Available with a metal foot, with or without castors.

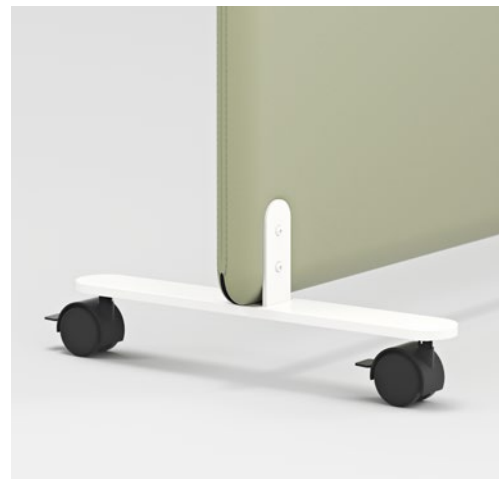

- Connectable screens for optimal flexibility
- Practical for temporary screening
- Easy to assemble – connectable tubing
- Is stable – a metal foot, with or without lockable castors
- Contributes to a good acoustic environment
- Upholstered with durable artificial leather – easy to wipe down and disinfect without the need to dry off
- Swedish manufactured quality

## CONNECTABLE PARTITION SCREEN

The partition screens have connectable tubing (tubes) that provide a unique flexibility, and that make it easy to create new screens. The tubes are available in white, black, dark grey and silver. You can choose between a low metal foot, with or without castors, or in the colours white, black, dark grey and silver. Castors provide you with even more flexibility, and easily allow the screens to be moved as needed. It is easy to connect more units or to reduce combinations. It is also practical to clean below the screen (35-85 mm free space depending on chosen foot).

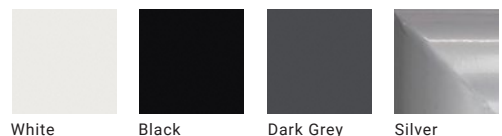

**VF1218T VMF** Single with support foot

**VF1218T VF1218TEX VMFC** Two connected with castors

### METAL

### CONNECTABLE PARTITION SCREEN
